#### DIGITAL ADVERTISING CATALOGUE

# Facts & Figures

# **About audienzz**

# **2016** Open for business

Founded as a spin-off from the NZZ newspaper and has been enjoying steady organic growth ever since. audienzz has been able to strengthen its positioning by making acquisitions in the technology and marketing fields.

# **100** % Digital ad tech

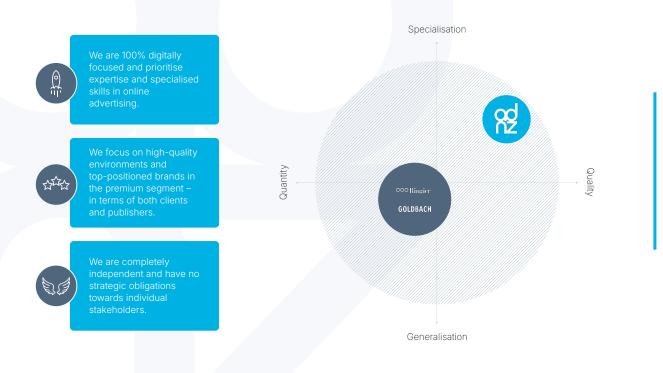

As a digital advertising specialist audienzz markets online advertising formats and develops digital tools and services for direct clients and agencies.

# **100** + Digital talent

audienzz employs more than 100 people from the DACH region and beyond. The ever-growing team comprises skilled specialists with wide-ranging digital expertise.

## **Competent, not conventional**

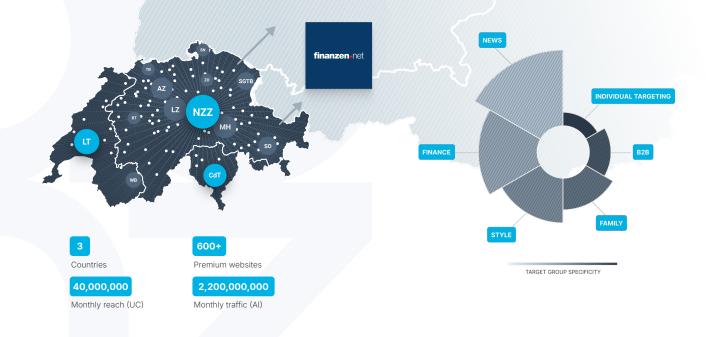

We position ourselves as a specialist in premium digital advertising.

As a digital pure player with a clear strategic focus, we see ourselves as a competent and innovative service provider in the online advertising market in the DACH region.

We rely on high-quality inventory and act as an impartial and transparent partner for our publishers. Digital Advertising Catalogue

## **DACH reach and target groups**

We offer international reach thanks to more than 600 premium publisher sites across the entire DACH region. Our partners all have a strong regional presence and focus on delivering high-quality news content.

We talk to different target groups in the relevant environments – from broad-based news to special interests – to make sure advertising messages always reach the right audience. We also offer individual and contextual targeting.

## **Publisher network**

# **Combined reach options**

#### Brands

We already market more than 600 premium websites covering all subject areas.

#### Alliances

The websites with the greatest reach and reputation are united in one place and can be booked by advertisers either individually or in combination for digital campaigns with national impact.

Targeting

User and contextual targeting enable ads to be placed based on personal or context-related data and the target group to be narrowed down more precisely.

#### **Combined reach**

Advertisers can choose from media brands, topic-specific alliances, or customised (user or contextual) targeting. For maximum advertising impact and effectiveness, however, we recommend a combined approach.

# **Formats**

#### Branding

On branding days, maximum attention and lasting advertising impact are guaranteed by large-scale advertising placements covering the full screen width on all devices (standard limits don't apply).

#### Content

The advertising message is packaged in a captivating story and aimed at credible, high-reach brands and precisely defined target groups to ensure it is conveyed effectively to the right audience.

#### Display

The complete range of display placements – including the innovative in-feed placement – is available in desktop and mobile formats, and is constantly being optimised and developed.

High-impact premium advertising formats focusing on user engagement and optimum performance

#### Native

The native advertising network with the widest reach, which embeds native ads seamlessly in editorial content and displays them on more than 200 trusted websites, where they adapt dynamically to the respective publisher's layout.

#### Video

Video ads attract maximum attention by conveying the advertising message in the form of gripping moving images, thus creating a deeper emotional connection with the target group.

#### Newsletter

The newsletter advertising network envoy bundles together the output of well-known media publishers and, through careful selection of topics and targeting, ensures newsletter campaigns have more reach, impact and precision.

# Reading Pade

Exclusive large-scale advertising placements are available that ensure maximum visibility for campaigns in image format.

The first marketer in Switzerland to offer branding formats that cover the full width of the screen on all devices.

01 2F

With this innovative solution, impactful and forward-thinking content can be published on the open web – a high-reach and interactive alternative to traditional strategies, such as promoted content.

Users arrive, via native ads, on a customised landing page, which offers an enhanced user experience, generates more engagement, and increases dwell time and conversion rates. Post-campaign, a report is produced, with comprehensive insights on how it performed.

# GSTAAD

COME UP - SLOW DOWN

« This solution provides us with an innovative platform that does justice to the quality and intention of our content by presenting it in an interactive and creative way in a high-quality environment.

Through the targeted use of high-reach native ads, we were able to spark the interest of potential guests. Once they'd clicked through to the landing page, this then served as an effective tool to establish an emotional connection with the target group and highlight our messages. The interaction rate and dwell times speak for themselves. »

### Journalistic storytelling in a news environment

An experienced storytelling team develops a gripping storyline, researches the relevant background information and creates targeted content to the highest journalistic standards. The story can also feature video or audio content, infographics or gamification elements.

The campaign is rolled out across high-reach premium channels, supported by teasers and social media ads. Proof that the sponsored content reaches the desired target group is provided in the form of a guaranteed number of engagements.

### Edelweiss × Sponsored Content

« In an effort to appeal to a targeted readership with a penchant for travel, we decided to focus on sponsored content in 'NZZ am Sonntag' magazine and, specifically, the digital lifestyle platform 'NZZ Bellevue'. The close collaboration with NZZ Content Creation resulted in top-notch content that meets our high-quality standards. We were able to present twelve destinations and thus fuel the wanderlust of our existing and potential customers. »
